WE LOVE CLASSICS

Anyone who drives a young or vintage car doesn't just want to get from A to B. Of course, modern vehicles today offer more comfort, more performance and more safety than old ones. But the electrifying feeling that you can only feel behind the wheel of a car like an old Porsche 911 or Ford Escort and that runs through you like lightning is simply unique.

As soon as you get in, a car like this completely takes you over: everything is pure, real, mechanical and... individually. The cold metal of the handle, the heavy door that creaks slightly when opened and bangs loudly when it closes again. The seat whose soft, fragrant, old leather welcomes you and only feels complete when you sit in it. All the history you feel when you do this worn leather and the old plastic of the steering wheel, gear knob and buttons touched. The wild one, unbridled power and perhaps the metallic screech and thunder or the snotty sound of the engine. The pure, slightly angular mechanics of the circuit. All this and much more gives such a car a unique character, a personality and makes it irresistible for us.

„RACING IS LIFE.
EVERYTHING BEFORE OR AFTER IS JUST WAITING“
Steve McQueen

Freely adapted from Steve McQueen „Racing is life. Everything before or after is just waiting“ ends with us „WE LOVE CLASSICS“ does not end on the road, but continues on the racetrack.

With our ultra-light, customised racing wheels made from magnesium, we support you in continuing to bring the legendary racing and formula cars from the golden days of legends such as Jackie Stewart, Jack Brabham, Juan Manuel Fangio, Sterling Moss, Graham Hill, Jim Clark, Jacky Ickx, Jochen Rindt, Emerson Fittipaldi, Niki Lauda and many more to peak performance.

The former British brand Berazzi, known for manufacturing wheels for historic and classic racing cars of the classic racing cars of the 60s and 70s, is now part of Maxilite and enriches the racing product range.

Berazzi racing wheels are not only characterised by well-known designs from the past. They are also finely customised, as individual as the respective racing car and developed for top performance.

Their design gives us complete flexibility in adapting them to the individual requirements of each car in order to cover a wide range of bolt circles and widths as cost-effectively as possible.

Cast from high-quality magnesium, X-ray tested, stress-relieved and finished in our own workshop in England, Berazzi racing wheels are particularly lightweight and therefore perfect for racing, especially for formula and other racing cars from manufacturers such as Chevron, Lola, March and Brabham.

RACING WHEELS MADE FROM MAGNESIUM

ultralight & tailor made

BEST QUALITY

All Berazzi wheels are cast from high-quality AZ91 magnesium, X-ray tested, stress-relieved and finished in our own workshop in England.

COMPLETE FLEXIBILITY

- Exclusively 13-inch, width adjustment 5"-14"
- Centre hub adaptation to any hub configuration
- Centre lock or any bolt circle

REPLICA

Ideally suited for formula and other racing cars from manufacturers such as Chevron, Lola, March and Brabham, but can also be adapted to cars from other manufacturers.

SPEED

Versatile use on Formula 1 and 2 vehicles, as well as other racing cars and sports prototypes from the late 1960s to the present day. The designs are based on the style of independent wheel manufacturers.

CHEVRON 4/4S-CF

A B O U T U S

Expertise and Passion for classic design.

The Maxilite success story began in Switzerland in 2008: even after a long search, we were unable to find the right wheels for our classic cars. The retro wheels available on the market from Italy and Great Britain were beautiful, but could not fully fulfil our requirements and were also not TÜV-certified and therefore not eligible for registration. The decision was made: To produce our own retro wheels according to the German quality standard, TÜV-certified and therefore registrable, which nevertheless authentically capture and reproduce the spirit, finish and style of the originals.

What started with a handful of models is now a wide range that grows every year, consisting of hundreds of different models for aluminium and steel wheels for a wide variety of brands and vehicle types from 1950-1990. It ranges from thoroughbred Italians such as Alfa Romeo, Fiat and Lancia to British gentleman cars such as Jaguar, Jensen and MG to American veterans such as Buick, Cadillac, Ford and Dodge and from established German brands such as Audi, BMW, Mercedes, Porsche and VW to exotics such as Jensen, Ginetta and Lotus and long-extinct legends such as Mercury, Plymouth, NSU, Sunbeam and Triumph or even the racing cars of the Formula Super Vau.

The production of our high-quality retro wheels takes place in established, TÜV-certified factories that, in addition to us, also believe in Original Equipment Manufacturers.
